☐ ☐ 25X1X

1. It was learned in late October 1950 that the shipyard at the former Puebnitz (N 55/P 13) seaplane base had turned over three hangars to the air force, because an airfield nearby has been reconditioned. Some aircraft were said to have landed there. The cutter construction program at the shipyard was cancelled.*

25X1

* ☐ Comment. ☐ after construction work at the Wittstock airfield was completed, the construction personnel were to be transferred to Damgarten to improve the airfield there. ☐ The present report is therefore believed to be possible. No details on construction work are known. To date the hangars have been used by a shipyard. ☐
